A woman with long, wavy blonde hair is seen from behind, standing on a stone patio next to a swimming pool. She is wearing a black and white patterned dress with a white belt and is holding a pair of sunglasses. The pool has a colorful mosaic tile border. In the background, there are palm trees and a white fence. The scene is set during sunset or sunrise, with a warm, golden light. A white diagonal line runs from the top right towards the bottom left, separating the text from the image.

hey there

Hi I'm Brittney! I'm a social media marketer, brand ambassador, coach to female entrepreneurs, and digital course creator.

And if there's one thing I've fallen in love with.. It's going out for a glass of wine with other female entrepreneurs and discussing their social media.

Cause that's really how this started.. other girlboss' reaching out for help. I'd sit on the other side of the table.. and word vomit all over them about algorithms, how to get results, and social media numbers.

And while we can't exactly have that glass of wine over the internet, here's what I want you to know: getting wild results from your social media is completely possible. That's exactly what I'd tell you if we were sippin' a cab sauv right now.

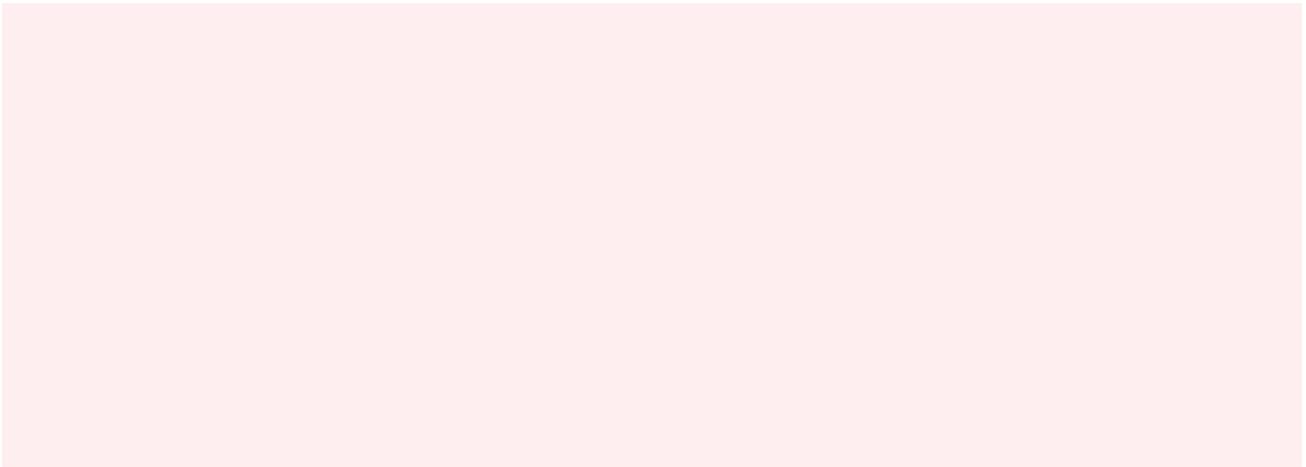

There was a time though a couple years ago where I was posting daily, getting a few pity likes from my friends, and if I'm being completely honest with you.. I wasn't getting a single sale from my online efforts. SO if you're sitting there reading this, half laughing to yourself because you feel the same way, I totally know where you're at.

All it takes is a decision to start taking your social media seriously, and a helping hand from someone who has been where you're at. I'm so excited to be on this journey with you, and I can't wait for you to get started.
